

# Environmental Science Camp

## June 13-17, 2011

Cost \$55.00

Ages 6-14

There are so many fields in science, and this week we will focus on technology, space and nature. During this week we will take a look at the stars in the planetarium, handle a wide variety of animals, both mammals and reptiles, study some plants, and we may visit Sylvan Heights Waterfowl and Eco-Center in Scotland Neck. We will also take a visit to the lake to swim and canoe.

Applications available online at:
